

THE INTERNATIONAL
FRAGRANCE ASSOCIATION

Making a difference - in every sense

The International Fragrance Association promotes the safe use of fragrance for everyone's enjoyment.

Our members create fragrances that bring joy, emotion and color to people's lives, and are committed to acting responsibly by protecting consumers and respecting our shared environment.

We also support progress through high-quality jobs and innovation, including in the field of alternatives to animal testing.

IFRA is proud to sponsor this Joint Symposium as part of its commitment to the development of new approach methodologies.
